NOKIAN TYRES REMEDY WR G5

NATURAL VERSATILITY

NOKIAN TYRES REMEDY

FORGET THE FORECAST®

Seventy-four percent of North American all-season tire drivers say they feel unsafe driving in winter at least a few times each year, according to a YouGov survey of drivers in the United States and Canada*. True to its name, the **Nokian Tyres Remedy WRG5** is built to cure that problem for drivers who experience inconsistent winter weather and want a true 12-month driving option.

As with Nokian Tyres' previous all-weather tires, the Remedy WRG5 carries the three-peak mountain snowflake that certifies it is designed for winter driving. It comes with enhancements over former generations that offer drivers Natural Confidence, Natural Performance and Natural Resilience in heat, rain, snow and slush. And for the first time, Nokian Tyres has infused Aramid fibers in all sizes of an all-weather passenger tire, giving the entire Nokian Tyres Remedy line a Pothole Protection warranty that offers drivers total peace of mind.

As Nokian Tyres promotes the Remedy WRG5, it is also working to educate drivers about the difference between all-season and all-weather tires. While all-season tires become less effective in temperatures below 45 degrees Fahrenheit (7 degrees Celsius), all-weather tires are engineered to remain responsive to the road in cold, snowy conditions. At the same time, Nokian Tyres Remedy WRG5 is crafted to be durable – it comes with a treadwear warranty of 60,000 miles or 100,000 kilometers.

The Nokian Tyres Remedy WRG5 is the sixth generation of all-weather products from the company that made the first all-weather passenger tire 24 years ago.

*According to a third-party survey of more than 1,000 drivers in the U.S. and Canada, conducted in April 2022 by YouGov, on Nokian Tyres' behalf

- ✓ HEAT
- ✓ RAIN

NATURAL VERSATILITY

NATURAL CONFIDENCE

Traction zone provides versatile performance and safety in all weather conditions

NATURAL PERFORMANCE

Handling zone provides performance driving in all seasons

NATURAL RESILIENCE

Triple-Performance Compound durability, mileage and low rolling resistance across a wide temperature range

Increased snow traction thanks to **Snow Claw Blocks**, **Snow Boosters** and **Dual Performance Siping**

Shoulder blocks and all-weather stability band deliver crisp steering regardless of conditions

Pothole Protection Warranty and ultimate durability through first-in-its-segment Aramid sidewalls

Turbo-boosted water and slush evacuation with **Lightning Grooves** and **Venturi Grooves**

Precise driving with touring comfort thanks to adaptive **Cap and Base Compound**

Deep Siping provides long-lasting grip across the mileage warranty

“Since designing the first all-weather passenger car tire, we have continued to be a leader in the all-weather market, and the Nokian Tyres Remedy WRG5 takes that leadership to the next level,” said Nokian Tyres North America Director of Products **Steve Bourassa**. “The all-weather category continues to grow. Dealers and consumers alike realize that products like the Nokian Tyres Remedy meet the needs of North American drivers who experience unpredictable winter weather and need a year-round option in areas where it’s hard to justify dedicated winter tires.”
